

End-of-Life (EoL) Announcement — Celona 4G Access Points (AP11, AP11H, AP12, AP13, AP13E)

Date: November 1, 2025

Product: Celona 4G Access Point (AP11, AP11H, AP12, AP13, AP13E)

**Recommended Replacement: Celona 5G Access Point (AP22/24/25) or
Celona AP20 (4G/5G)**

Celona is announcing the end-of-Life for the 4G AP portfolio (AP11, AP11H, AP12, AP13, AP13E).
Installed units remain certified and supported through their published end of support.

Use the table below to map each model to its recommended replacement and key notes
(indoor/outdoor, external antenna needs, PSU/antenna reuse). Mixed deployments are
supported to enable phased, no-downtime migrations.

Key Milestones

Milestone	Date
EoL Announcement	November 15, 2025
End-of-Sale (Last Order)	January 31, 2026
End of Support (EoS)	January 31, 2031

Product Transition Details (Indoor Access Point):

Product	Type	Recommended Replacement(s)
AP12	Indoor 4G AP	Use AP20 with 4G mode enabled or 5G alternative (AP20 with 5G mode / AP22 / AP24)
AP13	Indoor/Outdoor 4G AP	Indoor: Use AP20 with 4G mode enabled or 5G alternative (AP20 with 5G mode / AP22 / AP24) Outdoor: No 4G successor. Use 5G alternative (AP25)
AP13E	Indoor/Outdoor 4G AP (ext. antennas)	Indoor: Use AP20 with 4G mode enabled or 5G alternative (AP20 with 5G mode / AP22 / AP24). Use AP24 for 5G with external antennas. Outdoor: No 4G successor. Use 5G alternative (AP25)

Mixed deployments of AP12/13/13E and AP20/AP22/AP24 are fully supported.

Product Transition Details (Outdoor Access Point):

Product	Type	Recommended Replacement(s)
AP11, AP11H	Outdoor 4G AP	AP25-48 (5G outdoor)

Mixed deployments of AP11 and AP25 are fully supported.

New Features:

- Upgraded 5G radio technology supporting 3GPP Release 15.
- Support for 4G or 5G technology on AP20

Support & Warranty

- All 4G AP subscriptions remain valid through the EoS date.
- Celona will fulfill RMA requests with the same 4G units while supplies last.

Customer Next Steps

Customers are strongly encouraged to transition to the AP20, AP22, AP24 or AP25 for all new deployments:

- Supports both greenfield and brownfield deployments.
- Mixed deployments of AP11/AP11H/12/13/13E and AP20/AP22/AP24/AP25 are fully supported.
